Ilios Dynamics Appoints Company Board of Directors, Officers and Key Management

Waltham MA, May 12, 2009 – Ilios Dynamics, a company dedicated to advanced heating systems for commercial and industrial applications, announced today the formation of its Board of Directors, officers and management team.

The Board of Directors will consist of:

- John N. Hatsopoulos, Co-founder of Thermo Electron Corporation and Tecogen Inc., Chief Executive Officer
- Dr. Ahmed F. Ghoniem, Ronald C. Crane (1972) Professor, Director for the Center for 21st Century Energy, Massachusetts Institute of Technology
- Barry J. Sanders, President & Chief Operating Officer, American DG Energy Inc.
- Robert A. Panora, President & Chief Operating Officer, Tecogen Inc.

The management and consultants will consist of:

- Robert A. Panora, President
- Bonnie J. Brown, Chief Financial Officer
- Joseph B. Gehret, Chief Technology Officer
- Anthony S. Loumidis, Treasurer & Secretary
- Dr. George N. Hatsopoulos, Technology Advisor & Consultant
- Parimal Patel, Technology Advisor & Consultant

“We are very fortunate to have assembled such a distinguished and talented group for this exciting new venture. In particular, Dr. Ghoniem and Dr. Hatsopoulos are both world renowned for their contributions in thermodynamics energy technology, while the other individuals are all highly experienced in their respective technical and business fields. Under this leadership, we are highly confident that our company will advance quickly in achieving its business goals,” said Robert Panora, President of Ilios Dynamics.

About Ilios Dynamics

Ilios Dynamics, a wholly owned subsidiary of Tecogen Inc., was formed in April 2009 to develop and distribute a line of ultra high-efficiency heating products for commercial and industrial applications utilizing advanced thermodynamic principles. The Ilios Dynamics products will incorporate mechanical work to extract heat from the environment in order to supplement the chemical energy available in the fuel. The result is a significant boost in efficiency and carbon emissions benefit relative to conventional heating systems. Both Tecogen Inc. and American DG Energy Inc will distribute Ilios Dynamics products.
